CIRCULAR FOR 1866.

THE ANNUAL COURSE OF INSTRUCTION.

The next term commences on the First Tuesday in September, and will continue sixteen weeks. Degrees are conferred at the close of the term.

The College edifice is spacious and commodious, and pleasantly situated near the Capitol and other public buildings. The Lecture Rooms, Working Laboratory, Anatomical Theatre, and Dissecting Rooms, the halls for Museum and Library, combine all the requisites to render them convenient and suitable for medical and surgical instruction.

The Museum, in the variety of its specimens, both natural and morbid, in the number of its rare and valuable preparations, and in the abundant means which it furnishes for practical illustration, is not surpassed by any in the country.

It contains all the morbid specimens accumulated during a long course of surgical practice by Prof. March. These are sufficiently numerous and valuable to form in themselves a very large Museum.

It contains Prof. McNaughton's valuable Collections accumulated during twenty years' connection with the College of Physicians and Surgeons of the Western District. Also the extensive and valuable Collection of Prof. Armsby, embracing a great variety of vascular, nervous and other preparations, which have been constantly accumulating since the establishment of the Institution.

The casts, plates, models, and morbid specimens, imported from Europe, are very numerous, comprising most of the valuable pathological models of Thibert, and of others skilled in this branch of art.

It is asserted with great confidence that no collection in the country affords means more extensive for illustrating anatomical structures and the various forms of disease than the Museum of this College. It is at all times open to students; and the specimens and preparations are so arranged as to afford opportunities for study and illustration.

The Chemical Apparatus is extensive and complete, enabling the professor to exhibit all the experiments illustrative of the powers that influence chemical action. The application of chemistry to medicine is made a special object throughout the course.

The Lectures on Materia Medica are illustrated by specimens of all the known remedies.

The Library numbers nearly 5,000 volumes, a portion of which is appropriated

to the use of students during the lecture term. No fee is charged for the use of books to those who have matriculated. *Students are advised to furnish themselves with one good text book in each department.*

The following works are recommended by the Faculty:

Surgery — Druitt, Erichsen, Miller.

Anatomy — Wilson, Liedy, Gray.

Theory and practice — Eberle, Wood, Watson.

Chemistry — Brand and Taylor, Miller, Kane, Bowman, Bird.

Materia Medica — United States Dispensatory, Wood's Materia Medica, Stille's Materia Medica.

Obstetrics — Rigby, Churchill, Byford, Ramsbotham, Cazeaux, Bedford, Meigs, Hodges.

Physiology — Carpenter, Dalton, Kirkes, Todd and Bowman.

Medical Jurisprudence — Dean, Taylor, Beck.

The WORKING LABORATORY, for instruction in Practical and Pharmaceutical Chemistry, will be open during the term. The course of instruction includes the preparation of compounds used in medicine; the determination of the purity of medicines; the examination of the principal bases and acids, including a systematic course for their detection; the analysis of blood, urine, &c., &c., particular attention being paid to the *detection of poisons* and examination of urine. Laboratory ticket, $10.

Students will be charged for breakage and chemicals used by themselves. The hours for working will be so arranged as not to interfere with the lectures and other College exercises. The Laboratory is kept open throughout the year.

This new feature of medical instruction, so essential to the successful practitioner has exceeded the most sanguine expectations, a large number of students having already availed themselves of its advantages. The spacious *working* Laboratory which has been erected, is furnished with all the necessary fixtures and apparatus.

The DISSECTING ROOMS are open during the term, and ample opportunities are furnished for the pursuit of *Practical Anatomy.*

The Dissecting ticket is $5. An abundant supply of material for dissection is furnished on the most reasonable terms.

Saturday of every week is devoted to surgical operations, and a great variety of surgical cases are presented to the class.

Clinical lectures are delivered three days in the week in the Hospital.

Indigent persons requiring surgical operations or advice, are attended to gratuitously on Saturday, at the College. During the last term more than 400 cases were exhibited to the class, and a large number of the most important operations performed; such as Lithotomy, amputations of the thigh, leg and ankle, removal of the lower jaw, ligature of arteries, Rhinoplasty, &c., &c. The average number of cases and operations during the week was 25, embracing a great variety of the most important surgical diseases and operations.

The great advantages derived from these cliniques consist in the intimate knowledge of cases and their history; the opportunity of witnessing a great variety of surgical operations and the treatment proper for each case. From these clinical lectures and operations the students derive a great amount of varied practical knowledge.

A large and commodious HOSPITAL has been established nearly opposite the Col-

lege, provided with a spacious Lecture Room, Dispensary, and every requisite for the Study of Clinical Medicine and Surgery, to which students are admitted free of charge.

Post mortem examinations, surgical and medical cases, in great number and variety, are here exhibited to the class.

University of Albany.

1865-6.

DEPARTMENT OF LAW.

The Winter term of 1865 commences on the last Tuesday of November, and the Spring Term of 1866 on the first Tuesday of March, and each continues twelve weeks. The next Fall Term will commence on the first Tuesday of September, 1866, and will be followed by two successive terms of twelve weeks each.

Any three successive terms will complete the entire course, each term being independent and complete, as to the instruction embraced in it. The method of teaching is by lecture, examination, and practice in moot courts. Two lectures are given daily, except Saturdays, and two moot courts held each week, at which causes are first argued by previously appointed disputants, then discussed and decided by the class, followed by the views of the presiding Professor. Thus the law is taught both as a science and an art.

The immense *Law Library of the State* is opened to the students and all the terms of the *Supreme Court* of the Third Judicial District, and of the *Court of Appeals*, the highest in the State, are held in the city of Albany.

The fee for a single term is $40; for two terms $70; and for three, $100; in each case payable in advance.

The Professors and leading topics, are as follows:

HON. IRA HARRIS, LL.D., PRACTICE, PLEADINGS, EVIDENCE.

HON. A. J. PARKER, LL.D., REAL ESTATE, CRIMINAL LAW, PERSONAL RIGHTS.

AMOS DEAN, LL.D., PERSONAL PROPERTY, CONTRACT, COMMERCIAL LAW.
